lakshaysharma2399@gmail.com
+917820012368

SKILLS

- **Languages:** C, Java, Python, SQL
- **web development:** HTML5, CSS3, JavaScript, Servlet, JSP, Bootstrap
- **Databases:** MySQL, PostgreSQL, SQLite, Vector Databases, Vector Search
- **Version Control:** Git, GitHub
- **Libraries & Frameworks:** Pandas, NumPy, Scikit-learn, OpenCV, TensorFlow, FastAPI, REST APIs, Matplotlib, Seaborn, Sqlite3, Power BI, Data Visualization
- **Generative AI:** LLMs, LangChain, LangGraph, RAG, Prompt Engineering, feature engineering, Agentic Workflows, AutoGen, Data Preprocessing
- **Machine Learning:** basics of Machine Learning, basics of Deep Learning, basics of NLP
- **Cloud & Tools:** AWS(basics - EC2, IAM, EBS, VPC), n8n, VS Code, Apache NetBeans, Jupyter lab
- **Soft Skills:** Problem Solving

EDUCATION

Master of Computer Application : ABES Engineering College (2024 – 2026)
Bachelor of Computer Application: S.D. College Of Management Studies((2021 – 2024)
Senior Secondary Education (XII) : Lala Jagdish Prasad Saraswati Vidya Mandir Inter College(2021)
Secondary Education (X) : Lala Jagdish Prasad Saraswati Vidya Mandir Inter College(2019)

PROJECTS

AI Chatbot using LangChain : (Python, LangChain, RAG, Gemini API, FAISS)

- Developed a RAG-based chatbot using Python, LangChain, and Gemini API to answer user queries about YouTube videos using video transcripts.
- Implemented text chunking, embeddings, and FAISS vector search with LangChain prompt templates and chains to retrieve relevant information and generate context-aware responses.

Customer Churn Analysis: Python, SQL, Pandas, NumPy, Matplotlib, Seaborn, SQLite

- Developed a customer churn analysis project using Python, SQL.
- Performed data cleaning, feature engineering, data analytics techniques and exploratory data analysis (EDA) to identify churn patterns.
- Created visualizations and business insights to support customer retention and decision-making.

AI Restaurant Assistant (n8n + WhatsApp):

- Built an AI-powered restaurant assistant using n8n workflows.
- Automated customer queries for menu, timings, reservations, and FAQs.
- Integrated WhatsApp with the Gemini API to generate AI-powered conversational responses.
- Configured webhooks, workflow automation, and Simple Memory in n8n to maintain conversation context.

INTERNSHIP / TRAINING

AI/ML Intern – ConsultIT Technologies Pvt Ltd Feb 2026 – May 2026

- Worked on Machine Learning, Deep Learning, NLP, and Computer Vision applications.
- Gained hands-on experience with Python, TensorFlow, Scikit-learn, OpenCV, and Pandas.
- Completed training in AI/ML model development and data processing.

CERTIFICATES

Python Essentials 1 & 2 - Cisco Networking Academy (OpenEDG Python Institute)
